"Activists and organizers will find lots of ideas and inspirations in this book's detailed account of an epic battle. It's a very timely reminder that when we fight we often win." - Bill McKibben, author Radio Free Vermont

This is the final meeting until September. September's discussion book will be "A Gentleman in Moscow" by Amor Towles.

The library will notify book group members when the September title is available to pick up.

Opossums are marsupials. After a baby opossum is born, it spends time developing in the safety of its mother's pouch. They range in size from mice-sized to ten pounds, live in grasslands and deserts, and use their prehensile tail and spread-out toes for climbing.

Of the ninety species of opossums that exist in the world, only the Virginia Opossum inhabits the U.S.

Come to the library and make your very own opossum!
