## Artist of the Month

November 2016

Photographer and Hampton resident Darrell Eifert is our featured artist for the months of November and December. This exhibit marks a bit of a change for him.

Darrell has always been drawn to the light and beauty of landscape and seascape images in the U.K., as well as the stunning interior geometries of classic British cathedrals. Years ago, he met photojournalist Ivan Massar (now deceased) and was amazed by his prints from the streets of Paris in the 1940s. That initial meeting blossomed into a 10-year friendship and included conversations about the unique compositional and observational skills that go into capturing what Cartier-

Bresson famously called 'the decisive moment'. This year when Darrell and his wife visited Cambridge and London, he put some of those skills into practice resulting in the street photos that are on display at the library. There is a panoramic image of the London skyline taken from the Greenwich Observatory and several cathedral compositions giving a glimpse of what draws the Eiferts back to the UK again and again.
